## Vintage report

Year of abundant birth of new shoots, with dry weather during the flowering period, resulting in relatively high productivity. The entire period of growth, until harvest, was extremely dry, which affected the photosynthesis in the vines, including interruptions of maturation. This resulted in small bunches, giving concentrated and aromatic whites, and structured, densely coloured reds.

## Tasting notes

A wine of salmon pink colour. Highly aromatic, with pronounced floral notes, and hints of red fruits, of which raspberry stands out. In the mouth it is delicate and fine, with a crisp acidity and an elegant finish.

## Vinification and aging

Fermented at low temperatures, and aged during three months over the fine lees, without battonage.

## Serving suggestions

Best served at a temperature between 10° and 12°C.
